capital is progressing. The Russian official reports admit that the Germans are attacking the advance defenses 15 miles northwest of Warsaw, but at the same time they receive several instances in which the Germans have been either repulsed or were unsuccessful in their attacks. The battle is still raging on almost the entire front between the Viepra and Bug rivers.

The Russians also announce the destruction in the Black sea of 40 sailing vessels laden with coal for Germany. There are no developments of any mo ment on the western front. The French official report to-day recites a few minor engagements but shows no changes of importance.
